Sincija i Filipo se nakon dužeg dopisivanja na internetu, konačno sastaju. Uslijediće loše skuvana večera, nekoliko pića viška i neprekidna smjena privlačnosti i stida. Lako je povezati se sa ovom pričom u kojoj je različitost samo sitnica. Na gledaocima je da odluče koliko je ta sitnica bitna.

Cinzia and Filippo meet in person for the first time after having met on chat. A badly cooked dinner, a few extra drinks, a constant alternation of attraction and embarrassment. They reveal themselves one word at a time, until Cinzia falls in her own usual trap, the one she triggers when she feels insecure. It is easy to relate to this story, in which diversity is only a detail. And it is on the viewer's eye to decide whether this detail makes a difference.
